Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The examiner and applicant's representative discussed the invention and the independent claims 27 and 28. The applicant's representative explained the functionality of the presentation booth and the power podium and their communication with each other. The examiner and applicant's representative also discussed the rejection of claim 27 with respect to the references used in the rejection, and the examiner agreed that the combined references do not teach independent claim 27 and that the same references would not be used to reject the claim again. The examiner noted that the claims will be subject to further search and consideration when a response is filed.
